

04 October 2010

Delships, led by Dave Elton, has supported and served our yachts since 2005 and on a near yearly basis. During these past 5 years, levels and depth of service have increased commensurately with our ever increasing demands. This company have a wholehearted appreciation of the often but typical obscure requests and needs; as a result of diverse business interests and extensive connections within South Africa and beyond, they are able to deliver. I have no qualms to a point of being adamant that other yachts should employ the services of Delships when visiting South Africa, we certainly look forward to future collaborations when visiting South Africa.

Anon,
Captain,
Large Exploration Yacht
